# 78 PEOPLE SENTENCED TO DEATH

DETAINED BY THE END OF 2022

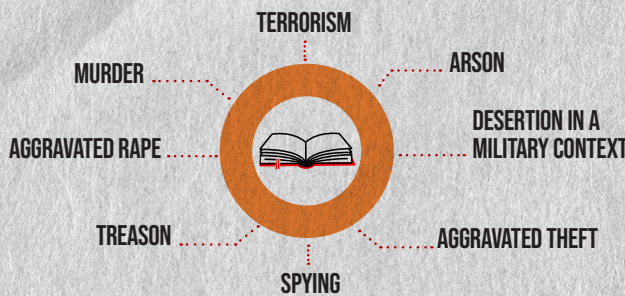

INCLUDING AT LEAST **4** WOMEN

## SITUATIONS Akin TO MISTREATMENT HAVE BEEN REPORTED

The physical and psychological health of prisoners sentenced to death is altered. Several prisoners interviewed stated they had attempted suicide on several occasions.

## 41 LEGISLATIVE PROVISIONS ON THE DEATH PENALTY

### OFFENSES PUNISHABLE BY DEATH

## INHUMANE CONDITIONS OF DETENTION

## PRISON OVERCROWDING

300% OCCUPANCY RATE

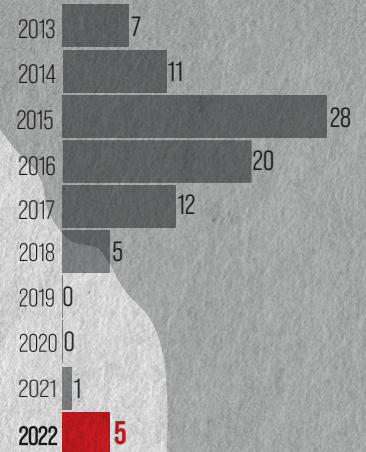

## LEBANESE PRISONS ARE THE MOST OVERCROWDED IN THE MIDDLE EAST

according to Prison Studies (2019)

Dilapidated and poorly maintained detention facilities and prisons (dirt, humidity, lack of insulation and light in cells) have a negative impact on the health of prisoners, who suffer from infections and illnesses (asthma, dermatitis, etc.).

Access to water and hygiene is restricted; health care and food are of poor quality.
